

“OUT OF DARKNESS is an inspirational fable, a cautionary tale, and a heart-pounding adventure story -- all at the same time. This book is a must-read for any kid who is struggling with difficult choices. The story is a frightening glimpse into the dark world of the illegal drug trade, and a powerful reminder that every choice leads to a consequence. Young readers won't be able to put it down, and they will come away with the clear knowledge that no darkness is beyond the redemption of God.”

- Jeff Edwards, award-winning author of TORPEDO, and THE SEVENTH ANGEL

"They discussed drugs in my college health class and I almost fell asleep, but after reading Out of Darkness, I am convinced that Officer Mettler offers a compelling way to report the effect of drugs and crime on someone's life. His story is action packed and fast moving and a must read for young people of today. He is an excellent writer with a passion to get the truth into the hands of our young people."
